

Enabling Good Lives

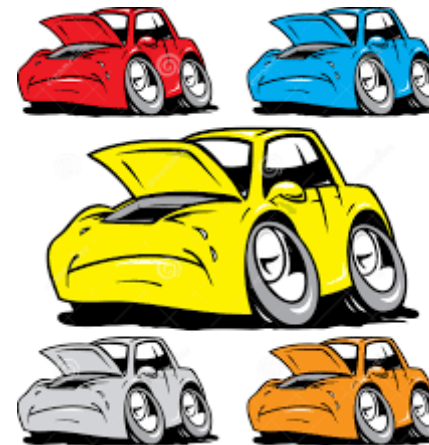

WELCOME TO THE NEW ERA

Does this look familiar?

You just didn't fit in to what was made available to you?

Felt like it needed repairing?

Lets think of EGL as the car that's going to help you get to where you're heading

**You are the driver
and the Kaituhono or Connector is the mechanic
that helps your car run well**

Under the bonnet can be a bit mind boggling for some people.

Others manage it themselves or might ask someone who knows to give them a hand.

For the car to make it where you are heading it may need resourcing such as funding, services and supports.

**The destination you are heading to is not the same as mine
but either way you now get to be in the driver's seat**

It's a reality!
